**Sekolah Menengah Sains Alam Shah (ASiS)**

Ministry of Education Malaysia

Sekolah Menengah Sains Alam Shah (ASiS) in Cheras, Kuala Lumpur, is a renowned science boarding school established in 2000. ASiS specializes in STEM education, offering Form 1-5 education with strong emphasis on science, technology, engineering, and mathematics. Named after Sultan Alam Shah of Selangor, the school has built an excellent reputation for academic achievement and university placement success. As a government Sekolah Berasrama Penuh, fees are highly subsidized, making specialized science education accessible to talented students from B40 and M40 families. Located in the capital city, ASiS students benefit from proximity to universities, research institutions, and science museums for educational enrichment. The school features advanced science laboratories (physics, chemistry, biology), ICT facilities, mathematics resource centers, library, sports complex, and modern dormitories. ASiS's curriculum emphasizes hands-on science experiments, research methodology, problem-solving, and critical thinking. Students participate in national science competitions and research fairs. The boarding environment promotes collaborative learning, peer tutoring, and development of independence. Experienced science teachers with strong academic backgrounds provide mentorship and guidance. Admission is highly competitive, prioritizing students with strong aptitude in science and mathematics, based on primary school results (formerly UPSR), co-curricular achievements, and interviews. Applications for Form 1 admission: <https://spskt1.moe.gov.my> (typically January–February). ASiS graduates consistently gain admission to competitive medicine, engineering, and science programs at top universities.

Eton College

Eton College is one of the world's most prestigious boys' boarding schools, founded in 1440 by King Henry VI. Located in Windsor, England, Eton has educated 20 British Prime Ministers and numerous members of royal families worldwide. The school serves boys aged 13-18, offering A-Levels and the IB Diploma. Annual fees are approximately \$55,000-\$65,000 USD. Despite its elite reputation, Eton operates one of the UK's most generous financial aid programs, with over £7 million awarded annually and approximately 20% of students receiving support. The school maintains exceptional academic standards with nearly all graduates gaining admission to top Russell Group universities, Oxbridge, and international institutions. Eton's distinctive traditions, combined with modern facilities and teaching methods, create a unique educational environment. The school emphasizes character development, leadership, and public service alongside academic achievement. International students, including Malaysians, are welcomed and supported through comprehensive pastoral care systems.
